SYLLABUS

1 Brief discipline annotation

The European transnational space discipline is aimed at providing students with a system of knowledge of the structure, functioning and particularities of the development of European transnational corporations, their role in the development of the global economy, features of the development and implementation of international investment strategies, justification and adoption of international European investment decisions.

2 Background for studying discipline

While studying the discipline, students should learn to justify the viability of applying European experience in reforming in the context of modernization and globalization challenges; analyze the impact of core globalization areas (internationalization, informational support, integration, westernization, etc.); highlight the role of the European Union as a participant in global politics; explore the concept of the European transnational space by defining its leading development trends.

3 Goal and objectives of the discipline

The goal of the European transnational space discipline is to provide students with productive global thinking and a system of knowledge in global and European integration, decision-making in the contemporary integrated space, taking into account aspects of global cooperation and implementation of the European business model in the Ukrainian economy.

Key objectives of the European transnational space discipline:

- to reveal trends in establishment and development of the European transnational space;
- to conduct a comparative analysis of models of European transnational space reforming;
- to be able to explain the viability of applying European experience in reforming in the context of modernization and global challenges;
- to analyze the impact of core globalization areas (internationalization, informational support, integration, westernization, etc.);
- to stress the role of the European Union as a participant in global politics;
- to explore the concept of the European transnational space by defining its leading development trends.

4 Learning outcomes

PLO 1. To know your rights and obligations as a member of society, realize values of civil society, supremacy of law, rights and freedoms of individuals and citizens in Ukraine.

PLO 11. To show skills in analyzing the situation and carrying out communications in different areas of organization activities.

PLO 12. To assess legal, social and economic consequences of organization functioning.

PLO 13. To talk in state and foreign languages both orally and in written form.

PLO 15. To show the ability to act in a socially conscious manner based on ethical considerations (motives), respect of diversity and multiculturality.

PLO 19. To assess enterprise participation in European integration processes and detect prospects of their future development.

5 ECTS credits

4 ECTS credits / 120 academic hours

32. The role of the Copenhagen Criteria and the Madrid Criteria for Accession to the EU for reforming the public administration system in Ukraine.
33. Ukraine-EU relations: stages, problems, achievements, prospects.

9

Discipline features

Period of teaching	Semester	International disciplinary integration	Year of study	Courses: general training/ professional training/elective
1st semester	5th semester	available	3rd year	Elective discipline

10

Assessment system and requirements. General system of discipline assessment

As part of discipline teaching, one carries out current and final control of students' knowledge. The final test grade is given according to the total rating of students.
QR Code: <https://ieu.edu.ua/docs/pol-mark-esb.pdf>

According to the results of current control during a semester, students can obtain 100 points maximally, the minimum sum of points allowing students to pass the discipline is 60 points.

Correlation between national and ECTS grades and student rating: QR Code: <https://ieu.edu.ua/docs/pol-mark-esb.pdf>

11

Admission to final control

The minimum amount of points that should be obtained by students for current educational activities during a semester to be admitted to the final control is 36 points. The grade for the discipline is defined as a sum of the final points for current activities and the points for the final control and is expressed due to the multipoint scale.

The grade for the discipline completing with the test is determined as the sum of points for current learning activities (at least 36), points for individual independent work of students (no more than 6) and points for the test (at least 24).

The overall points of the discipline are 100. The total grade for the discipline is given according to the national and European scale.

The final control in the form of a test is carried out after learning all the topics of the discipline, during the examination session.

SYLLABUS

12 Discipline policy

To ensure fruitful learning and cognitive activities of students while studying the discipline, one holds relevant lectures and seminars in the form of presentations, case studies, group work and discussion seminars.

During classes and at the University, students should respect lecturers, staff and other students, attend classes according to the schedule, come on time and not leave classes without lecturer's permission. All academic assignments should be performed by the deadlines.

The teaching staff should constantly advance their professional level, teaching skills, general culture, as well as provide students with appropriate conditions for learning educational programs according to the requirements for the content, level and capacity of education, and encourage their comprehensive professional development. Lecturers should follow the curriculum, not be late for classes, not allow any manifestations of corruption, discrimination, bullying, harassment and infringement of the students' rights.

13 Policy of absence and late task performance

Students who miss the current control for valid reasons confirmed by documents have the right to take current control within two weeks after returning to studying.

Students who have missed classes without valid reasons, have not participated in current control activities, have not liquidated academic failure are not admitted to the final semester control of this discipline. In this case, an academic staff member puts a mark 'non-admission' in the exam record.

Repeated taking of the exam in the discipline is appointed in case of accomplishing all types of educational, independent (individual) work stipulated by the working program of the academic discipline and is carried out according to the approved schedule of academic failure liquidation.
